

C100

MARCUS FERREIRA, 2026

O C100 é um sofá modular pensado para criar composições circulares que aproximam as pessoas e estimulam o convívio. Seu desenho limpo e discreto cria uma experiência acolhedora no interior, enquanto, externamente, uma costura simples converge em uma linha central, expressando com sutileza a geometria da peça. Com quatro possibilidades de composição, permite criar círculos de conversa entre 3,5 e 4,3 metros de diâmetro, resgatando a ideia do sofá como espaço de encontro.

TIPOLOGIA

Indoor Sofá, Pufe.

COMPOSIÇÃO

Estrutura Madeira.

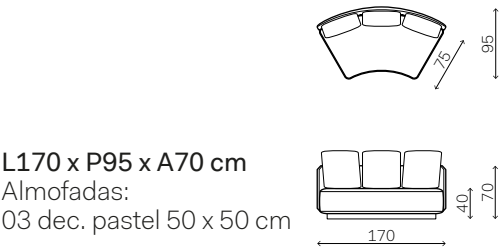

Estofado Espumas de poliuretano e manta de poliéster.

Almofadas Fibra de poliéster.

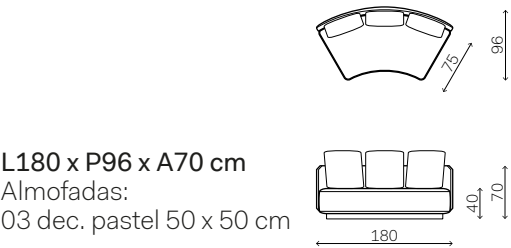

ACABAMENTOS

Revestimento Tecido ou couro. CBE

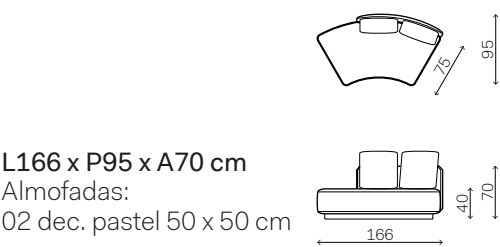

C100 (Ø3,5M) SOFÁ
